Competitive advantages

Geographical location

The district is located in the northern zone of the Krasnodar region.

Environmental and climatic conditions

Favorable conditions for agriculture include fruit and vegetable cultivation, crop farming, and berry production.

Demographic factors

The population of the district is 35,531 individuals, with 19,437 people of working age.

Economic development

The gross product for 2023 amounted to 19 billion rubles, showing a growth of 3,5% compared to 2022.

In 2024, the estimate is 20 billion rubles, which represents an increase of 5,8%.

Business Support Infrastructure

- Support small businesses by offering property leasing with favorable terms, without the need for bidding.
- Providing benefits to farmers who sell agricultural products by including spaces for farmers and agricultural consumer cooperatives in the scheme for setting up mobile trade facilities on favorable terms.
- Providing the investor with advice, information, and organizational support to help implement the investment project.
- Providing workspaces in a co-working center for small businesses to use for group or individual work at no cost.
- Subsidies are provided to support small farms (individual entrepreneurs, private and household farms) using funds from the regional budget.
